

Congratulations Charleston Auto Auction!

The Fleet Management Professionals

Charleston Auto Auction is proud to announce it has earned ARI's "Auction of the Year" for the Southeast region. This award is based upon the auction's performance in many areas of service such as days to pickup, days to post a condition report, days to sell, and time to receive funds. Also accuracy, pricing, timeliness, and communication are all taken into consideration.

Chris Wise, National Remarketing Manager for Charleston A.A. says, "It has been our #1 goal for 2006 to provide the best in customer service for our valued clients. Really and truly, it is all about teamwork, though. The entire staff of ARI is such a pleasure to work with. It is certainly an honor to receive this prestigious award."

Jim Jackson, Regional Marketing Manager for ARI points out, "Charleston Auto Auction exemplifies ARI's corporate philosophy of "Partners in Excellence."

Chris Wise and his group at Charleston A.A. provide a consistently high level of service including prompt vehicle pick ups, data entry, communication, and of course, high returns. A well deserved award as Charleston A.A. is consistently a top performer in the southeast region."

ARI presents this award each year to the auctions who best reflect the true meaning of ARI's "Partners in Excellence." The presentation will be held at a gala awards dinner in Mt. Laurel, NJ on April 27th.
